ROLE-BASED CERTIFICATIONS

Earn a role-based certification that shows you are keeping pace with today's technical roles and requirements. Skill up, prove your expertise to employers and peers, and get the recognition and opportunities you've earned. The latest Microsoft Role-Based certifications make your knowledge and skills even better.

ARE YOU AZURE READY?

Whether you want to learn basic cloud computing concepts or how to develop and deploy cloud applications, you can count on our official Microsoft Azure training courses to help you use your cloud environment to its fullest potential. Creating and hosting applications in your Microsoft database just got easier. Learn the fundamentals all the way up to advanced Azure concepts. Microsoft Azure certification training will help you develop more relevant skills around your day-to-day activities.

Azure Fundamentals –
Exam AZ-900 | Course M-AZ900T01 & M-AZ900
Prove that you understand cloud concepts, core Azure Services, Azure pricing and support, and the fundamentals of cloud security, privacy, compliance, and trust.

Azure Solutions Architect
Exam AZ-300 | Course M-AZ300
Exam AZ-301 | Course M-AZ30
Azure Solutions Architects must have expertise in compute, network, storage, and security so that they can design solutions that run on Azure.

TECHNOLOGY DOES NOT STOP. NEITHER CAN YOU

You closed a skills gap today. But what about tomorrow? In IT, skill-building should be continuous. You have to keep running to keep pace with technological changes, and you do that through continuous learning. Continuous learning is your ally in this constant evolution. And that's the fun of IT, right?

IT professionals are always learning innovative skills and solving problems. There's always something new to discover — and that's exciting. Discover new frontiers with Microsoft Role Based Certifications.

Gold Microsoft Partner

APPS AND INFRASTRUCTURE

From scale and agility to cutting-edge functionality, today's modern cloud fuels organisational movement and growth. Demonstrate your ability to modernise applications and infrastructure with Microsoft's role-based certifications for Azure Apps and Infrastructure.

Azure Administrator
Exam AZ104 | Course M-AZ104
Azure Administrators implement, monitor, and maintain Microsoft Azure solutions, including major services related to compute, storage, network, and security.

Azure Developer
Exam AZ204 | Course M-AZ204
Azure Developers design, build, test, and maintain cloud solutions, such as applications and services, partnering with cloud solution architects, cloud DBAs, cloud administrators, and clients to implement these solutions.

Azure Security Engineer
Exam AZ-500 | Course M-AZ500
Azure Security Engineers implement security controls and threat protection; manage identity and access; and protect data, applications, and networks in cloud and hybrid environments as part of end-to-end infrastructure.

Azure DevOps Engineer
Exam AZ-400 | Course M-AZ400
Azure DevOps professionals combine people, process, and technologies to continuously deliver valuable products and services that meet end user needs and business objectives.

Specialty certification

Azure for SAP Workloads
Exam AZ-120 | Course M-AZ120
Azure for SAP Workloads have extensive experience and knowledge of the SAP Landscape Certification process and industry standards that are specific to the long-term operation of an SAP solution.

Azure IoT Developer
Exam AZ-220 | Course M-AZ220
An Azure IoT Developer works with data engineers and other stakeholders to ensure successful business integration. They manage the device lifecycle–set up, configuration, and maintenance–using cloud services and other tools.

DATA AND ARTIFICIAL INTELLIGENCE

From advanced analytics to artificial intelligence, the power of data accelerates business and fuels digital transformation. Prove your ability to unleash the power of data with Microsoft's role-based certifications for Azure Data and AI.

Azure AI Fundamentals
Exam AI-900 | Course M-AI900
This certification is an opportunity to demonstrate knowledge of common ML and AI workloads and how to implement them on Azure. This certification is intended for candidates with both technical and non-technical backgrounds.

Azure Data Fundamentals
Exam DP-900 | M-DP900
This certification is intended for candidates beginning to work with data in the cloud and can be used to prepare for other Azure role-based certifications like Azure Database Administrator Associate or Azure Data Engineer Associate.

Azure Database Administrator
Exam DP-300 | Course M-DP300
Azure Database Administrators implement and manage the operational aspects of cloud-native and hybrid data platform solutions built on Microsoft Azure data services and Microsoft SQL Server.

Azure Data Scientist
Exam DP-100 | Course M-DP100
Azure Data Scientists apply Azure's machine learning techniques to train, evaluate, and deploy models that solve business problems.

Azure Data Engineer
Exam DP-200 | Course M-DP200
Exam DP-201 | Course M-DP201
Azure Data Engineers design and implement the management, monitoring, security, and privacy of data using the full stack of Azure data services to satisfy business needs.

Azure AI Engineer
Exams AI-100 | Course M-AI100
Azure AI Engineers use Cognitive Services, Machine Learning, and Knowledge Mining to architect and implement Microsoft AI solutions involving natural language processing, speech, computer vision, bots, and agents.

Data Analyst Associate
Exam DA-100| M-DA100
Data Analysts enable businesses to maximize the value of their data assets by using Microsoft Power BI. Data Analysts are for example responsible for designing and building scalable data models.

MODERN WORKPLACE

Today's modern workplace thrives on productivity, engagement, and collaboration Prove your ability to efficiently and securely manage a Windows environment and support a global, mobile workforce with Microsoft's role-based certifications for Microsoft 365.

Microsoft 365 Fundamentals
Exam MS-900 | Course M-MS900T01
Prove that you understand the options available in Microsoft 365 and the benefits of adopting cloud services, the Software as a Service (SaaS) cloud model, and implementing Microsoft 365 cloud service.

Modern Desktop Administrator
Exam MD-100 | Course M-MD100
Exam MD-101 | Course M-MD101
Modern Desktop Administrators deploy, configure, secure, manage, and monitor devices and client applications in an enterprise environment.

Messaging Administrator Associate
Exam MS-203 | Course M-MS203
Microsoft 365 Messaging Administrators deploy, configure, manage, and monitor messaging infrastructure, permissions, client access, mail protection, and mail flow in both on-premises, hybrid, and cloud enterprise environments.

Security Administrator Associate
Exam MS-500 | Course M-MS500
Microsoft 365 Security Administrators proactively secure M365 enterprise and hybrid environments, implement and manage security and compliance solutions, respond to threats, and enforce data governance.

Teams Administrator Associate
Exam MS-700 | Course M-MS700
Microsoft Teams Administrators configure, deploy, and manage Office 365 workloads for Microsoft Teams that focus on efficient and effective collaboration and communication in an enterprise environment.

Developer Associate
Exam MS-600 | Course M-MS600
Microsoft 365 Developers design, build, test, and maintain applications and solutions that are optimised for the productivity and collaboration needs of organisations using the Microsoft 365 platform.

Enterprise Administrator
Exam MS-100 | Course M-MS100
Microsoft 365 Enterprise Administrators evaluate, plan, migrate, deploy, and manage Microsoft 365 services.

LEARN ABOUT THE COMPLETE MICROSOFT 365

Demonstrate your expertise in Microsoft 365 technologies and advance your career by earning one of the new Microsoft 365 role-based certifications for Enterprise Administrators or an Office 365 certification. Validate your skills in areas such as transitioning to and administering cloud-hosted business applications with Microsoft 365, and moving your company to the cloud.

EXAM AND CERTIFICATION BADGES

Let the world know about your achievement as soon as you pass an exam or earn a certification with a digital badge. Digital badges allow you to easily share your skills in a way that is trusted and verifiable.
Your Microsoft badge empowers you to:

- Easily share your certifications and exams with your professional network.
- Learn which employers are looking for individuals with your skills.
- Discover the salary you can expect in jobs that require your skills.
- Search for new job opportunities associated with your certification and apply in just a few clicks.

MICROSOFT TRAINING DESIGNED FOR YOUR NEEDS

When you take Microsoft training from Global Knowledge you can rest assured that you are getting the most updated material in the best format delivered by experts in the industry. From individual Microsoft courses to specialised Microsoft boot camps, we pride ourselves on helping you attain the skills you need to prepare for whatever your job role demands. Choose the option that's right for your learning style and budget.

MICROSOFT SOFTWARE ASSURANCE (SA) TRAINING VOUCHERS

Microsoft Software Assurance is a comprehensive program that includes a unique set of technologies, services, and rights to help deploy, manage, and use Microsoft products efficiently, Software Assurance helps keep your business up to date and ready to respond quickly to change and opportunities.

FREE TRAINING VOUCHERS

Depending on your Microsoft Software Assurance agreement, you might also receive free training using SA training vouchers (SATV). These can be exchanged for Microsoft Official Curriculum (MOC) training courses. A single voucher can be redeemed for one day of Microsoft technical training at one of the Global Knowledge locations. Microsoft Fast Tracks are excluded. You can also use the value of your vouchers as payment for customised technical Microsoft training.

ARE YOU LEAVING TRAINING MONEY ON THE TABLE?

If you still have SA Training Vouchers available, book your training course now! The SATV program retires by the end of 2020. If your organisation does not redeem its SATVs, you could be leaving free training money on the table. Search for SATV on www.globalknowledge.com for more information.

GET THE SKILLS YOU NEED

Successful implementations depend on the individuals tasked with deploying the new technology, the team that will support it, and those who will use the it. Global Knowledge training will empower your team to proactively address deployment and usage challenges through a combination of valuable, flexible, and trusted training courses. Prepare every member of your team with the skills they need to ensure a smooth, informed deployment, and fuel productivity in the modern workplace.

PLAN YOUR TRAINING

Delivery formats
