

Discovery Workshop

Why?

Achieving success with a new system means making sure it supports both your organisation and team objectives, helps everyone work smarter and achieve more with their work.

Aim

Our discovery workshop will demonstrate how to leverage the power of your new system to support day to day use, work more flexibly and work in a more collaborative way with colleagues.

What

We provide the big picture both technically and practically to provide inspiration of how groups can take advantage of new tools.

Who should attend a Discovery Workshop?

A mix of key stakeholders representing a cross section of your organisation that can drive and effect change in others. This includes executive sponsor, champions, managers, IT, employees.

Objectives

- Discover the big picture.
- Understand how the new system supports new ways of working.
- See how this can be applied within your organisation and teams.

Content

We will demonstrate common day to day scenarios using the new system.

Format

The session will be a mix of demonstration and informal workshop and will encourage creative discussion of ideas and concepts to support the discovery of the benefits of the new system relevant to your organisation.

Outcome

At the end of the session the group should have gained the knowledge to begin planning how their team are able to take advantage of the new system.

Agenda

- Introductions and Outcomes.
- Why are we adopting the new system?
- Demonstration of the top features, providing you with concepts of how they may be useful to your team and always within work related scenarios.
- Group discussion.
- Big Picture Overview of your chosen topics in the new system.
- Understand how to increase productivity, produce better work, work flexibly, be unified, improve communication and collaboration, share expertise and promote teamwork.
- Next Steps to success.
